

Grafton... get ready!

Ready Communities is a national initiative that helps regional communities strengthen the conditions needed for lasting change. We are running a series of 'readiness events' leading into our national conference called Social Impact in the Regions which will be held in Grafton 3-5 September. We are keen to learn more about the local community so if you are doing something great that we could showcase at the national event please reach out or attend one of the events below. More information can be found on our website www.readycommunities.com.au

Social Enterprise 101 StartSomeGood
